

Stressless Trout Safari

- enjoy fishing while sitting in a boat.

Bertejaure Fishing camp is a place for intense relaxation and a retreat for the small group of friends who come together – to go fishing.

The Mountain Lake of Bertejaure is known for its population of char. However, in summertime, happy trout are invading the waters and make merry jumps high into the air. Strong and alert, the trout of the Lake attracts fishermen from all over the Globe.

Our arrangements are suitable for groups consisting of two up to eight persons.

A three day trip:

Friday: Information is given on arrival at Vindelaforssen Cabins in Ammarnäs, Sweden. While you prepare equipment and gear, your host helps to load the Suzuki Jeep with all that is needed. You can change into outdoor clothes in our sauna while we pack the gear.

Our journey is a guided tour that takes you from Ammarnäs to Bertejaure on the Georgs Road – 10 km long and a rise in altitude of 170 meters. Your guide informs you of 200 years of farmer's culture while passing the Troll Forest, The Water Mill and the Waterfall.

On arrival at the Boathouse we choose a boat and start to explore the waters. Lodging is arranged in a trapper cottage. All evening is time for night fishing.

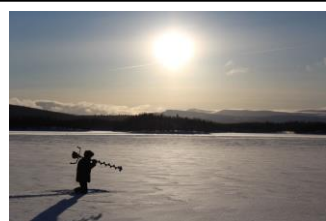

Saturday and Sunday: Time for exploring the Lake and its surroundings on your own. You find about thirty small mountain lakes and the winding creek to Rakkaure Lake.

In the evening you can share your experiences with your friends and have a nice sauna before sleep.

Monday: Clean your cabin, pack your gear, the host arrives at the Boathouse to take you back to civilization via the sauna at Vindelaforssen Cabins.

Welcome to the relaxation camp!
